Notes

How to print Printing

Once your Calibration Test Page has been printed, measure the 4"x 4" (10cm) scale box with a ruler. If the lengths match, you can confidently print your pattern. If the rulers do not match, set your print settings to 100% or Actual and retry.

Cutting

Your printouts will always have a dashed border to perfectly match your sheets. Cut off the right edge of each page. Be careful not to cut beyond the dashed mark, otherwise your patterns will not align accurately.

Tapping

Group each sheet by the second number marked on each page i.e. in a group 1, there are: 1/1, 2/1, 3/1, 4/1, etc. In a group 2: 1/2, 2/2 etc. 2. Place page 1/1 on top of the page 2/1, overlapping the right side edge. Match corners and crosses and secure with a pin or tape. Then use a scotch tape to permanently attach the sheets together.

The diagram shows a pattern piece for the back of a skirt. It is a large rectangle with a curved top edge. A vertical line runs down the left side, and a horizontal line runs across the top. The top edge is curved, starting from the left vertical line, curving upwards and to the right, then curving downwards and to the right to meet the right edge. There are small tick marks on the top edge and the left vertical line. The text '2' is centered in the middle of the pattern piece. Below the text '2' are the labels 'SKIRT BACK' and 'MAIN FABRIC: cut 2'. The number '5/1' is in the top right corner.
