Notes

How to print Printing

Once your Calibration Test Page has been printed, measure the 4"x 4" (10cm) scale box with a ruler. If the lengths match, you can confidently print your pattern. If the rulers do not match, set your print settings to 100% or Actual and retry.

Cutting

Your printouts will always have a dashed border to perfectly match your sheets. Cut off the right edge of each page. Be careful not to cut beyond the dashed mark, otherwise your patterns will not align accurately.

Tapping

Group each sheet by the second number marked on each pate i.e. in a group 1, there are: 1/1, 2/1, 3/1, 4/1, etc. In a group 2: 1/2, 2/2 etc. 2. Place page 1/1 on top of the page 2/1, overlapping the right side edge. Match corners and crosses and secure with a pin or tape. Then use a scotch tape to permanently attach the sheets together.

This image shows a handwriting practice sheet. At the top, there are two slanted lines that rise from left to right, creating a header space. Below these, the page is divided into two main sections by a horizontal line. Each section contains three horizontal lines for writing practice. The first section has a small vertical tick mark on the middle line, and the second section has a small vertical tick mark on the bottom line. The entire page is enclosed in a dashed border.
